“630 Years of Winemaking Excellence”

The Antinori family’s winemaking history has been synonymous with the famed wine growing regions of Tuscany and Umbria since its inception more than six centuries ago, when Giovanni di Piero Antinori entered the “Arte Fiorentina,” the Winemakers’ Guild of Florence, in 1385.

“Anitca” is a portmanteau of Antinori and California; and means “Ancient” in Italian, which expresses the passion for winemaking that has been passed down over 26 generations. The Antinori Family history is a narrative about devotion to winemaking, woven through six centuries, and stretches from the family’s legendary vineyards in Tuscany to our newest estate in California.
