

San Michele

SAN MICHELE wines are an expression of the strong bond with the territory and are the result of a long tradition of winemakers. Located in North-East of Italy in the Veneto region, the vineyards for the San Michele wines are situated in Valpolicella: a splendid hilly territory situated a few kilometers away from the famous city of Verona. Experience, professionalism, innovation and tradition are the fundamental features of the San Michele philosophy. The ancient Roman church featured over the brand name, is dedicated to San Michele Arcangelo and dates back to the 12th Century. Surrounded by a green lawn and protected by ancient walls, this little church evokes a mystical atmosphere, a magic not unlike that found in each bottle of these classic Italian wines.
